

Combining a central surface for projecting with two side surfaces, the **MIDDLEBOARD** large-width board is also easy to install and receive. Classrooms, meeting and training rooms, laboratories and others will finally be able to have large wall surfaces for writing, display and projection. The **MIDDLEBOARD** range eliminates material and financial constraints (staircase leading to the narrow meeting room, tight budget) and broadens the horizon of communication spaces by offering boards measuring a total of up to 6 meters in width.

Details

WIDE: A set of surfaces measuring up to 6 meters wide by 120 or 130 cm high.

PROJECTION AND WRITING: This set combines a central projection surface of 2 m with two writing and display surfaces. In white enamel projection, the three surfaces offer maximum visual comfort during projection with limited reflections and erasing is done using a damp cloth.

PERFECT FINISH: Easy to assemble, a discreet 7mm white junction profile between each panel allows to assemble them together for a perfect finish.

EASY TO RECEIVE AND INSTALL: The difficulties of delivery and installation of large paintings composed of one piece naturally condemned their presence in the meeting rooms. The single transport of boards of more than 4 m in 70% of cases results in damage, while boards of less than 2 m have a damage rate of less than 0.5%. Packaged in several packages, the **MIDDLEBOARD** board is therefore easier to handle.

ECO-FRIENDLY AND DURABLE: Eco-friendly materials such as PEFC-certified substrate and e3 enamel surface, lifetime guarantee* and 99% recyclable, which offers increased resistance to scratches, bacteria and chemicals. * Under normal conditions of use.

MAGNETIC SURFACE: To display with magnets. CARD HOLDER/PAPER BLOCK AND MARKER HOLDER.

OPTIONAL ACCESSORIES: Markers, chalk and drawing instruments for writing and drawing, brushes and cloth for erasing, spray and cleaner for cleaning, lighting ramp.

Materials

Set consisting of 3 juxtaposed elements measuring up to 6 meters wide by 120 or 130 cm high.

Glazed steel surface glazed at 800°C e3 white projection, available in felt white enamel, screen white, black or chalk green.

The high profile allows the panels to be mounted on the wall and incorporates the card hooks.

Discreet 7 mm junction profile in white lacquered aluminium.

Grey plastic protective tips for user safety.

High density wood chipboard substrate (8 mm), PEFC certified, 99% recyclable.

Gluing with a polyurethane glue without any VOC.

Frame in smooth anodized aluminium.

Certifications & warranty

Tableau : 2 ans / Surface : à vie.

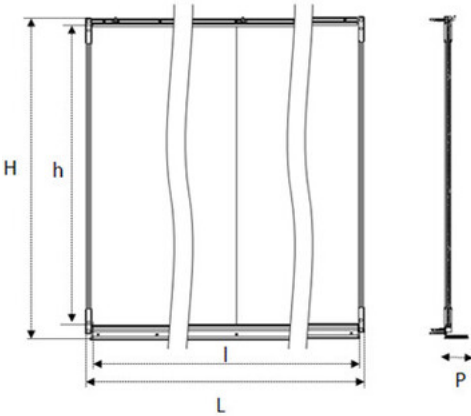

Product certified EN ISO 28762 and EN14334.

PEFC certified wood chipboard.

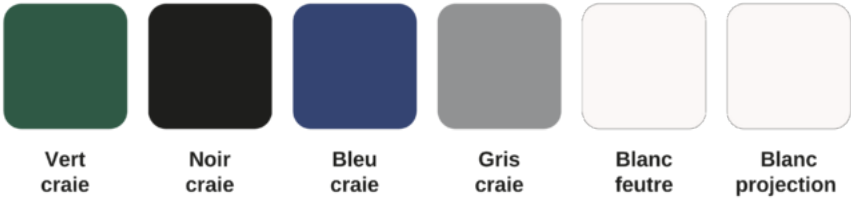

Product manufactured in a French factory certified ISO 9001, ISO 45001 and ISO 14001.

Fire rating M2.
