ABOUT US

At Vanerum France, we believe in the transformative power of visual communication.

Our mission is to create dynamic environments where ideas can flow freely, and collaboration thrives. Through innovative solutions such as interactive displays, whiteboards, and modular furniture, we inspire creativity and enhance communication in both learning and working spaces.

We are passionate about designing flexible, sustainable environments that not only boost productivity but also ignite the imagination.

Our Mission

VANERUM = ENVIRONNEMENTS i3

Our mission is to contribute to the creation of inspiring, flexible, and functional spaces for educational and work environments. We believe that the environment plays a crucial role in the intellectual, emotional, and social development of individuals. That is why we are committed to providing innovative, sustainable, and flexible design solutions that foster learning, collaboration, creativity, and development for students, teachers, and professionals.

Our History

1968

ETABLISSEMENT

Robert Van Erum founded the company and signed an agreement with Weyel to distribute the German brand's school boards.

1972

MANUFACTURING

The creation of Vanerum. We began manufacturing all types of boards, with enamelled steel as the reference material.

80'S & 90'S

EXPANSION

We expanded our offer with school furniture, initially as a distributor and then as a manufacturer. We also started to internationalize our activities.

2000

DEVELOPMENT

After entering the technology sector in the late 1990s, we became the distributor for SMART and NEC brands in the Benelux region.

2011

ACQUISITION

Vanerum acquires the French and Danish 'Visual Communication Products' business from PolyVision, marking the birth of i3-GROUP.

2013

Launch of i3-Technologies

In the following decade, we aimed to become one of the world's leading manufacturers of interactive group collaboration technologies

2022

ACQUISITION

We acquired the NORDISK Group (Denmark) to strengthen our presence in Scandinavia and integrate new products into our portfolio.

2023

STEELCASE PARTNERSHIP

We recently established a strategic partnership with Steelcase for France.

LEADER To & Fro

Ideal for equipping amphitheaters and conference rooms. The back and forth is made up of two writing panels made of e3 enameled steel that balance each other: when one panel moves up, the second one goes down. It can only be operated manually. With equal dimensions, a back and forth is better suited to tight budgets than a guillotine.

COLLABOARD

The Collaboard offers the largest enameled steel working surface available on the market, with a height of 150 cm. The enameled surface allows for intensive use of markers, projection, and the use of magnets for magnetic displays. It enables the display of large documents (A0 plans, storyboards) as well as interactive projection up to a size of 100 inches.

I3BOARD

Get creative with the interactive whiteboard.
Let your students or your collaborators experience true collaboration on the multi-touch interactive whiteboard: split the screen and allow multiple activities at the same time.

FABRIQUÉ EN FRANCE

Specifications

- **V-Sense Technology:** Utilizes sensors around the frame to detect touch, even if dust or other objects obstruct part of the frame.
- **Up to 20 Touch Points (depending on model):** The i3BOARD supports multitouch technology, detecting up to 20 simultaneous touch points.
- **Writing Surface:** Durable enamelled steel surface, compatible with both dry-erase and water-erasable markers.
- **Shape Recognition:** Intuitive and precise multitouch technology that recognizes the size and shape of contact, including pen, finger, augmented reality objects, and other rigid items.

4-SIDED BOARD

for i3Board

Transform your i3BOARD 87" into a triptych by adding two foldable panels for writing with dry-erase markers and displaying with magnets. The e3 enamel surface, guaranteed for life and 99% recyclable, offers excellent writing comfort, durability, and easy maintenance, with resistance to scratches, bacteria, and chemicals.

MOMENTUM

The MOMENTUM is designed to seamlessly integrate technologies such as screens and projectors with writing and display surfaces. This dynamic solution features a rail system that can accommodate up to 3 surface levels and a modular design. The MOMENTUM offers meticulous details such as ultra-thin aluminum frames, high-end and ecological materials, clever finishes to hide unwanted components.

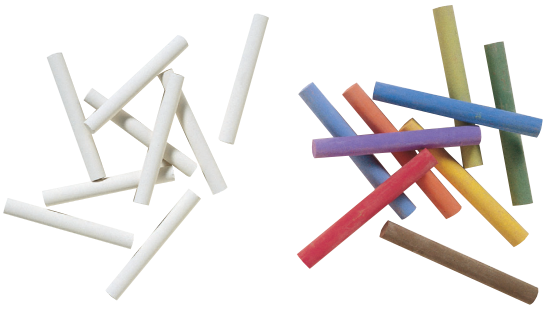
WHITEBOARD MARKERS

Use high-quality dry-erase markers like the Edding 660 for writing on enamel or glass. Ensure they are stored horizontally. Available in black, red, blue, and green, they are refillable and feature anti-drying technology, allowing them to remain uncapped for several days without drying out.

CHALK MARKERS

Ideal for visualizing meeting outcomes on a glass surface, the Edding 95 marker is ready to use immediately without needing to be primed. Its bright, opaque ink can be dry-erased without leaving any residue.



CHALK

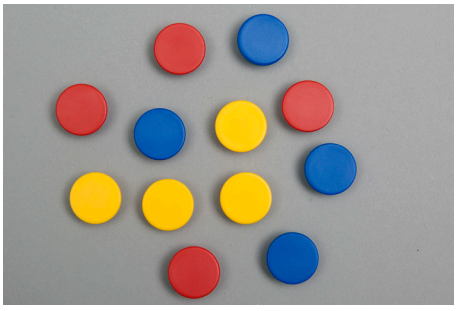
Still highly popular, these chalks are made from genuine French chalk. Dermatologically tested and dust-free, they glide smoothly on the board, leaving clear and clean lines.

KCHT ACCESSORY HOLDER

With its simple yet elegant design, the KCHT accessory holder is the ideal solution for storing less attractive items such as a microfiber cloth, markers, and cleaning spray while keeping them easily accessible. Magnets can be attached to its front surface. Robust and functional, this steel accessory holder can be mounted on the wall or magnetically attached to your enamel or glass board.

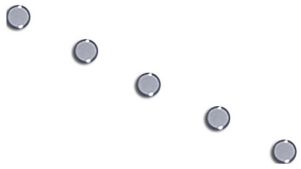
4-MARKER HOLDER

Convenient and magnetic, this plastic 4-marker holder keeps markers within easy reach.



MAGNETS

High-power neodymium magnets for glass boards allow you to securely display messages and notes. Round magnets for whiteboards (set of 12 assorted in red, blue, and yellow) add a touch of color while displaying messages and notes.



10 MM MAGNETS

These small, practical magnets allow you to display notes, memos, and photos.

25 MM MAGNETS

These magnets are designed for boards, allowing you to securely display messages and notes.

MICROFIBER & SPRAY BOTTLE

For effective cleaning/erasing of enamel surfaces, we recommend a clean, washable, and reusable microfiber cloth. Use it dry or dampened with a spray bottle of water.

CHALK ERASER

Keep your magnetic chalk eraser within reach to erase your green or black enamel chalkboard anytime.

MARKER ERASER & REFILLS

The magnetic marker eraser stays easily accessible on your whiteboard and remains clean thanks to its refills.

BOARD CLEANER

Most enamel surfaces can be cleaned with clear water, but for stubborn residues, board cleaner may be necessary. Rinse and dry the surface afterward.

WRITING & MAINTENANCE KIT

Kit includes: 1 cleaner, 1 empty spray bottle, 1 microfiber cloth, and 1 set of 4 markers.

CONFERENCE CASE

This lightweight and easy-to-carry conference case includes all the essentials for using your board: 4 markers, an eraser, refills, cleaner, and 8 magnets.

GLASS TRAY

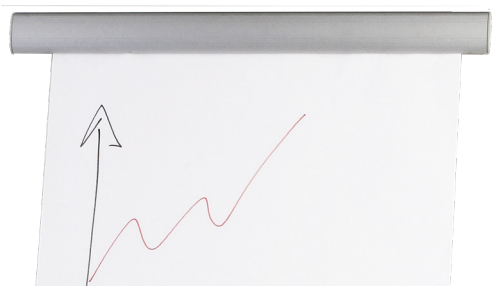
A practical and stylish accessory for organizing your materials.

DRAWING INSTRUMENTS

This set of 6 large instruments includes two set squares (45°/45°, 60°/30°), two rulers, a magnetic protractor with a convenient handle for precise tracing, and a suction compass compatible with markers or chalk.

PAPER PAD

Record your ideas with this pad of 50 plain sheets (65x100 cm), suitable for use with flipcharts or for hanging on board hooks.



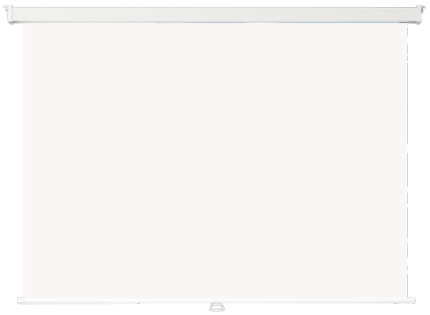
PAPER PAD HOLDER

Add a flipchart function to your board with this magnetic paper pad holder.

SQUARE PRO

Ideal for meeting and training rooms, the functional and ultra-compact Square Pro integrates easily with its small white lacquered aluminum casing (80x80 mm).

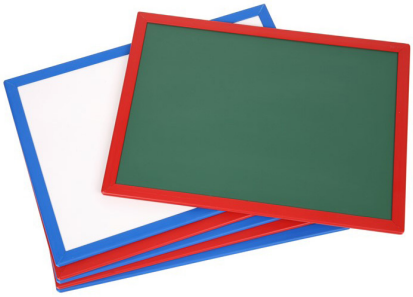
ADVANTAGES
- INVISIBLE FIXINGS: No visible screws once the screen is installed. Its triangular weighting bar integrates perfectly into the casing when the screen is rolled up. Easy-to-install recessed mounting option.
- CEILING OR WALL MOUNT: Supplied with standard brackets for wall or ceiling mounting.



ORAY 2000

Ideal for meeting and training rooms with tight budgets, the ORAY 2000 is a manual screen with a silent spring mechanism, available in square and 4:3 formats. It features an all-height locking system (every 10 cm).

AVANTAGES:
- BUDGET-FRIENDLY
- STEEL WHITE LACQUERED CASING
- SILENT SPRING MECHANISM
- ALL-HEIGHT LOCKING SYSTEM: Every 10 cm.
- CEILING OR WALL MOUNT: Supplied with wall or ceiling brackets integrated into the ends of the screen.



ÉCRITOISE

Ideal for schools and homes, the Écritoise offers a large 24x33 cm enamel e3 whiteboard guaranteed for life. One side is plain, while the other is printed (Séyès or CP-maternelle lined). Perfect for long-term use by children in a family or school setting

AVANTAGES:
- ECOLOGICAL AND DURABLE: Made from eco-friendly materials such as enamel e3, guaranteed for life* and 99% recyclable, offering increased resistance to scratches, bacteria, and chemicals (*under normal use conditions).
- MAGNETIC SURFACE: Ideal for educational games that foster creativity and guided activities (e.g., tangrams, alphabets, numbers).
- AVAILABLE IN BLACK OR GREEN CHALKBOARD: Consult our guide for help in choosing.

LIGHTING RAIL

The lighting rail for boards ensures effective lighting and eliminates unwanted reflections. Works with T8 tubes (not included).
